double-bowl sink with drainer | INSET or UNDERMOUNT

OUR REVOLUTIONARY TECHNOLOGY

Our manufacturing system uses a moulding technology system, meaning Artusi GraniteK sinks consist of a substantial and even distribution of its components including within the sink mass. This technology is internationally patented. GraniteK is the name given to our process of bonding granite and acrylic resin. This process results in the highest-quality finish, as it gives greater protection against high temperatures, cracks and chips, and is more resistant to violent impacts.

AGS1162 double-bowl sink with drainer BLACK or WHITE GRANITEK

Features

 1160x510 Dimensions (mm)	 1140x480 Built-in hole (mm)	 800 Base	 Inset
 Anti-bacterial surface	 Reversible	 Rectangular overflow	 200 Bowl depth (mm)

AGS1162B

AGS1162W

Sink Kit:
Space saving siphon, waste and pre-mounted hooks, rectangular overflow

Available accessories:
ARI01300 - Drain Rack
ATL11600 - Wooden Chopping Block

CERAMISATION COMPARISON:
This is a specific method in colouring the granite-particles. Their colouring of the materials happens not only on the surface, but also in all the particles' mass, through a particular firing process heating the material to over 700°C. This ensures the colour can penetrate deeply, reaching particles' core. The result give the end product the highest resistance against discolouring.
