60cm Induction Cooktop with 10AMP 'Plug & Play' MODEL CAID4PG

TECHNICAL DIAGRAM

How does the power sharing work?

If you are only using one zone, you will experience optimal results with the full available power in use. If you are using 2 zones, the power limiter will activate and the maximum available power for either zone will be 7. If 3 or 4 zones are used, the power limiter will activate and the available heat levels will adjust for each active zone:

- Cook with any single zone with full power available upto level 9
- Cook with any two zones at the same time with a maximum available power level of 7 for both active zones
- Cook with any three or four zones simultaneously and the maximum available power level will adjust to:
 - Zone 1 – maximum power level of 2
 - Zone 2 – maximum power level of 3
 - Zone 3 – maximum power level of 4
 - Zone 4 – maximum power level of 5

W	590mm
H	520mm
D	60mm

NB: drawings are not to scale — they are to be used for detailed installation instructions, please refer to user guide.
